Tekni-Plex completes Sancap Liner Technology acquisition

Wayne, Pa. (April 7, 2016) —Tekni-Plex, Inc. has acquired Sancap Liner Technology, Inc., Alliance, Ohio. Sancap is a leading producer of heat-seal, pressure-sensitive and gasket-sealing liners for pharmaceutical and food applications.

In addition to liners, Sancap also produces higher-barrier, Saran® laminations and coated pouch/bag structures for food, liquor, confection and chemical applications.

“Sancap’s heat-seal liner production capability makes this an ideal strategic acquisition for Tekni-Plex. It complements our existing liner technology and will enable us to service increasing demand from our global customers with an even broader product line,” said David Andrulonis, senior vice president/general manager, Tekni-Plex.

Tekni-Plex announced in March its plans to acquire the company. Sancap is now the third liner business Tekni-Plex has acquired in the last 18 months. The two previous acquisitions were Ghiya Extrusions, Ahmedabad, India and Tech-Seal, Triadelphia, W.V.

About Tekni-Plex, Inc.

Tekni-Plex is a globally-integrated company focused on developing and manufacturing innovative packaging materials, medical compounds and precision-crafted tubing solutions for some of the most well-known names in the pharmaceutical, medical, food and beverage, consumer and specialty-product markets.
