HPT Pharma, LLC Acquisition of Elmark Packaging, Inc. and Brandywine Labels, Inc.
Means Across the Board Win for Customers

Warrington, PA – August 3, 2016: HPT Pharma President JM Hasson announced today that the company has completed its acquisition of Elmark Packaging, Inc. and Brandywine Labels, Inc.

HPT's strategic and simultaneous acquisition will help expand its portfolio of innovative, customer-centric packaging solutions deeper into pharma, food, consumer product, chemical, and other markets.

"Our newly expanded customer base can look forward to an enhanced supply chain partner that is better equipped to service their needs," said Hasson. "Bringing Elmark and Brandywine into the HPT family means we can offer them the secondary and tertiary packaging solutions that will make us a critical link in their value chain."

Elmark Packaging, Inc. is a designer, innovator, supplier, and factory-authorized distributor of labeling equipment for special applications. In conjunction with Brandywine Labels' tag and label-manufacturing capabilities, Elmark provides self-adhesive labels, shrink sleeves, and tamper-evident bands that few can match.

"The synergies will be great," Hasson says. "Complementary products, excellent market alignment and three very customer-centric cultures are just some of the elements that will enable us to drive our client's success for years to come."

The new entity will continue to go to market as Elmark. The business will continue to operate from its main offices in West Chester, Pennsylvania, and HPT will gain access to new foreign sales offices in Ontario.
