GENESIS PARTNERS WITH R-V INDUSTRIES

Exton, PA— Genesis Packaging Technologies (Genesis) is pleased to announce its merger with R-V Industries, Inc. (RVII) of Honey Brook, PA. Genesis is a worldwide leader in the science and technology of pharmaceutical vial processing and residual seal force testing. The Genesis employees and operations will continue at its existing Exton, PA location as the Genesis Packaging Technologies division of RVII supplemented by RVII's engineering, manufacturing and service resources.

"I am very excited to share in the resources RVII can provide Genesis for continued growth and expansion of the products and services we offer our customers." said Bill Seiler, president of Genesis. "RVII is an extremely innovative company that will bring a wealth of skill, knowledge and experience to Genesis, it's operations, employees and customers."

"The Genesis acquisition provides a great opportunity to realize the synergies between our organizations," said Kirk Putt, president of R-V Industries. "The Genesis team has established their products and services as best-in-class within the pharmaceutical and life science markets. Both organizations saw the opportunity to partner the process expertise of Genesis with the resources and manufacturing strengths of RVII. We offer customers a U.S. based supplier who provides integrated engineering, manufacturing, testing and field service. Together we will continue to provide the highest quality equipment while offering unmatched service and delivery."

Founded in 1996, following its acquisition of the West Company's Machinery Systems Division, Genesis is a worldwide leader in the science and technology of pharmaceutical vial processing and handling. In addition to providing a line of vial capping and residual seal force equipment, Genesis provides parts and service for all their machines along with those supplied by the former Machinery Systems Division of the West Company.

Founded in 1974, R-V Industries, Inc. with annual revenue of \$50 million is a privately owned company headquartered in Honey Brook, PA with an additional manufacturing plant in Morgantown, PA, employing over 250 people company-wide. R-V Industries offers complete

turnkey industrial design and manufacturing services to the Chemical, Custom Fabrication, Food & Beverage, Life Science, Nuclear, Oil & Gas, Pharmaceutical, Pulp & Paper, and Power Generation industries.
