

Tekni-Plex unifies closure liner businesses under Tri-Seal brand name

Wayne, Pa. (May 17, 2016) —Tekni-Plex, Inc. is announcing that all of its liner manufacturing companies will be doing business as Tri-Seal, a Tekni-Plex, Inc. company, going forward. Representing more than 50 years of liner innovation, Tri-Seal is the company's legacy brand.

"In recent years, Tekni-Plex has acquired several liner companies in the United States, Europe and Asia. The acquisitions were motivated by the desire to provide a consistent global and/or regional supply for quality-driven pharmaceutical, food, beverage, cosmetic and personal care companies. Unifying all of those manufacturing facilities under our long-standing Tri-Seal brand will now make it even more seamless for brand owners to take advantage of a global supply channel," said David Andrulonis, senior vice president/general manager, Tekni-Plex.

Businesses affected by the branding change include recently-acquired Sancap, Alliance, Ohio; Ghiya Extrusions, Ahmedabad, India; Tech-Seal, Triadelphia, W.Va.; and Top-Seals, Gronau, Germany.

The change impacts eight manufacturing facilities that will continue to be supported by research and development, as well as innovation, from Tekni-Plex's Global Technology Center, Holland, Ohio.

Tri-Seal manufactures a broad range of liners in a variety of materials ranging from a one-piece induction seal to nine-layer coextrusions and laminations. For more information visit www.tri-seal.com.
